July 26, 2018

Dear sir or madam,

Our company supports the directive on the restriction of the use of certain hazardous substances. This decision was made in line with such environmental protection regulations as stated in two directives published by the European Union on the 13th of February 2003:

- Directive 2011/65/EU on the restriction of the use of certain hazardous substances with the harmonized norm EN50581:2012, including the delegated Directive (EU) 2015/863 the modification of Annex II to Directive 2011/65 / EU
- Directive 2012/19/EU on waste electric and electronic equipment (WEEE)
- Furthermore our products fulfill the environmental requirements of the China Ministry of Industry and Information Technology ("MIIT") SJ/T11364-2014 (China-RoHS 2)

Hereby, we certify and guarantee that our products, regardless of the production location, delivered by FRIWO to your company are RoHS compliant (included the ban of Deca- BDE) and fulfill the above two directives and the Chinese standards.

Should you have any query, please feel free to contact us.

Yours faithfully,

i.V. Klaus-Dieter Bischoff
Quality Systems Manager
